EDUCATION

University of Bristol, *BSc Data Science (Sep 2024 - Jun 2027)*

- Final-year student; predicted First-Class Honours.

Imperial College London, *MEng Electronics and Information Engineering (Sep 2023 - Jun 2024)*

- Transferred to BSc Data Science at Bristol after first year to focus on data science and AI.

Berkhamsted Sixth Form, *A-Levels (Sep 2020 - Jun 2022)*

- A*A*A*A in Computer Science, Mathematics, Physics, EPQ, Further Mathematics.
- Head Boy: delivered talks to 1,000+ audience members; campaigned on food waste; founded Academic Gala.

EXPERIENCE

BlackRock, *Summer Analyst, Aladdin Financial Engineering Team, London (Jun - Aug 2026)*

- Received full-time return offer.
- Shipped new module to internal SDK for private credit portfolio modelling and hypothetical asset generation.
- Built multi-asset risk budgeting optimiser to allocate risk across equity alpha sources and active equity managers.

Bristol Data Science & AI Society, *President, Bristol (Apr 2026 - Present)*

- Founded The Lab, a year-long AI startup builder programme: 200+ applications, 25 mentors from Microsoft, Imperial and Deutsche Bank, Isambard-AI partnership, and a final pitch to an investor panel for £1k in funding.
- Launched ImpactHack, a 24-hour hackathon sponsored by Cognition and spanning two continents, where 150+ participants in cross-disciplinary teams build solutions to real business challenges.

180 Degrees Consulting, *Head of Data Science, Bristol (Sep 2024 - Apr 2026)*

- Delivered AI and data science projects for 10 startups and charities worldwide, achieving 100% client satisfaction.
- Grew the data science consultant team by 112% in six months, attracting 450+ applicants in 2025.
- Secured partnership with Le Wagon, the world's largest tech bootcamp, for data science, software and AI training.

Educatch, *Full-Stack Software Engineer, London (May 2024 - Feb 2026)*

- Designed and deployed data-driven operations management platform using React, Python and MySQL, automating scheduling, invoicing, and attendance analytics for 50+ tutors and students.
- Reduced administrative workload by 10 hours/week; became company's most-used tool, supporting expansion.

WISENSE, *Junior Software Engineer, Berlin (Feb 2023 - Feb 2024)*

- Built machine learning studio with React frontend to create video and PLC analysis workflows in under 5 minutes.
- Deployed to Fortune Global 500 clients BMW and ABB for real-time incident detection on production lines.

Connect AI, *Junior AI Engineer, Remote (Jan 2023 - Jan 2024)*

- Developed GPT-4 LLM-powered customer support assistant with React frontend for startups including Digital Republic, handling 5,000 messages/month with 24/7 multilingual support.
- Implemented RAG (Retrieval-Augmented Generation) workflows with real-time feedback loops, reducing support ticket volume by 20% and improving resolution time by 95%.

EcoSwell, *Renewable Energy Intern, Peru (Aug - Sep 2022)*

- Built embedded monitoring system capturing 10,000+ data points weekly across 8 key data types.

COMPETITIONS & BOOTCAMPS

Winner, Claude x Imperial Hackathon, *London (Mar 2026)*

Winner, Lloyds Banking Group Hackathon, *Bristol (Mar 2026)*

National Finalist, Hult Prize, *London (May 2026)*

HackEurope, *Stockholm (Feb 2026)*

Le Wagon 10-Week Data Science Bootcamp, *Mexico City (Oct - Dec 2022)*

SKILLS & INTERESTS

Technical Skills — Python, JavaScript, React, SQL, R, C/C++, Pandas, NumPy, Git/GitHub, AWS and GCP.

Programming Tutor — Teach Python, web development and ML to teenagers through hands-on projects.

Hiking & Travel — Hiked 100km in 24 hours; lived and worked in Germany & Latin America; visited 25+ countries.

Theatre — Performed at Edinburgh Fringe; produced and acted in 15 Bristol Drama Society productions.
