EDUCATION

University of Bristol, *BSc Data Science (Sep 2024 - Jun 2027)*

- On track for First-Class Honours (75% average, Years 1–2).

Imperial College London, *MEng Electronics and Information Engineering (Sep 2023 - Jun 2024)*

- Switched from MEng Electronic & Information Engineering (Imperial) to BSc Data Science (Bristol) after first year.

Berkhamsted Sixth Form, *A-Levels (Sep 2020 - Jun 2022)*

- A*A*A*A in Computer Science, Mathematics, Physics, EPQ, Further Mathematics.
- Head Boy: Delivered talks to 1,000+ audience members; campaigned on food waste; founded Academic Gala.

Le Wagon, *Data Science Bootcamp (Oct - Dec 2022)*

- 10-week full-time bootcamp on Machine Learning, Deep Learning, Data Engineering, and Data Analysis.
- Capstone Project: Trained 9 CNN classifiers on 40,000 fashion images with TensorFlow (70–95% accuracy); integrated with ASOS API and KNN similarity model via Scikit-Learn to recommend personalised outfits.

EXPERIENCE

BlackRock, *Summer Analyst, Aladdin Financial Engineering Team, London (Jun - Aug 2026)*

- Received full-time return offer.
- Shipped new module to internal SDK for private credit portfolio modelling & hypothetical asset generation.
- Built multi-asset risk budgeting optimiser to allocate risk across equity alpha sources & active equity managers.

Bristol Data Science & AI Society, *President, Bristol (Apr 2026 - Present)*

- Founded The Lab, a year-long AI builder programme, securing 25+ experts from Microsoft, the FT, and Imperial.
- Launched Impact Hack, a 24-hour cross-disciplinary hackathon tackling challenges set by industry partners.

180 Degrees Consulting, *Head of Data Science, Bristol (Sep 2024 - Apr 2026)*

- Delivered AI & data science projects for 10 startups & charities around the world; achieved 100% satisfaction rates.
- Grew Data Science consultant team by 112% in six months, attracting 450+ applicants in 2025.
- Secured Le Wagon (#1 global tech bootcamp) partnership to train consultants in Data Science, Software, and AI.

Educatch, *Full-Stack Software Engineer, London (May 2024 - Feb 2026)*

- Designed and deployed data-driven operations management platform using React, Python, and MySQL, automating scheduling, invoicing, and attendance analytics for 50+ tutors and students.
- Reduced administrative workload by 10 hours/week; became company's most-used tool, supporting expansion.

WISENSE, *Junior Software Engineer, Berlin (Feb 2023 - Feb 2024)*

- Built machine learning studio with React frontend to create video and PLC analysis workflows in under 5 minutes.
- Deployed to Fortune Global 500 clients BMW and ABB for real-time incident detection on production lines.

Connect AI, *Junior AI Engineer, Remote (Jan 2023 - Jan 2024)*

- Developed GPT-4 LLM-powered customer support assistant with React frontend for startups including Digital Republic, handling 5,000 messages/month with 24/7 multilingual support.
- Implemented RAG (Retrieval-Augmented Generation) workflows with real-time feedback loops, reducing support ticket volume by 20% and improving resolution time by 95%.

EcoSwell, *Renewable Energy Intern, Peru (Aug - Sep 2022)*

- Built embedded monitoring system capturing 10,000+ data points weekly across 8 key data types.

HACKATHONS & COMPETITIONS

Claude x Imperial Hackathon, *Winner, London (Mar 2026)*

BDSS x Lloyds Hackathon, *Winner, Bristol (Mar 2026)*

Hult Prize, *National Finalists, London (May 2026)*

HackEurope, *Competitor, Stockholm (Feb 2026)*

SKILLS & INTERESTS

Programming Tutor — Tutor students in Python, Web Development and ML at PMT, codetoday and Code Kids.

Coding — Python, JavaScript, React, SQL, R, C/C++, TensorFlow, Pandas, NumPy, scikit-learn, AWS, and GCP.

Theatre — Performed at Edinburgh Fringe 2024; produced and acted in 15 Bristol DramSoc productions.
